INTRO

eHasp is a new web application developed with Entersoft Web Studio®.

The objective of this application is to replace the hardware hasp keys used at present, by creating one time tokens that can be used with EBS credentials with the same effects.

Potential users are:

- Entersoft Support
- Entersoft Consultants
- Entersoft Partners

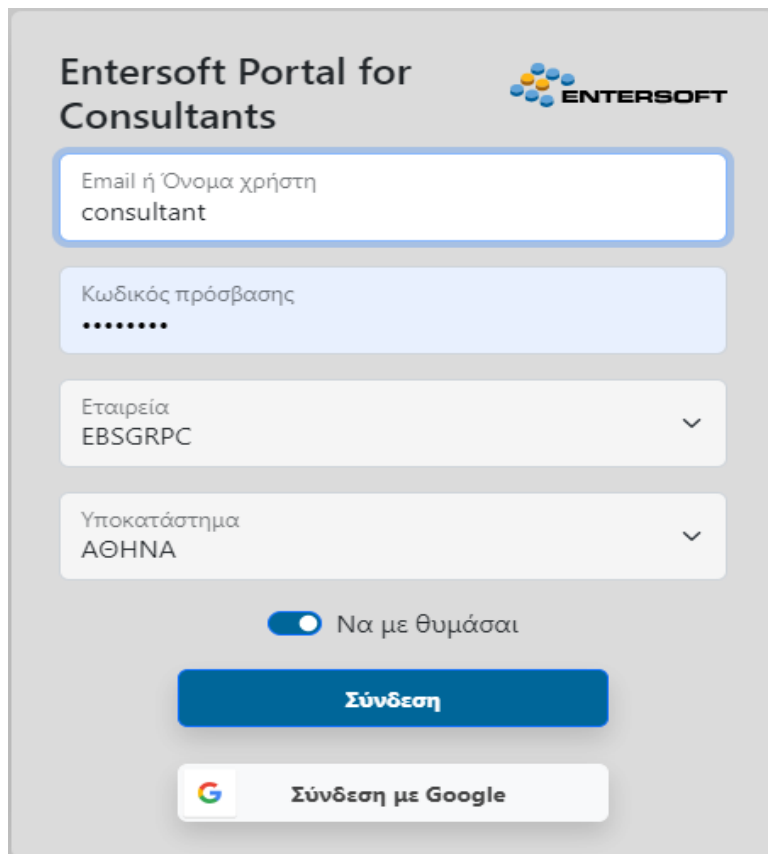

The minimum EBS Version supported is **5.7.0.1**

You can find eHasp application at the following URL

<https://apps.entersoft.gr/esconportal/esentersoft/app/signin>

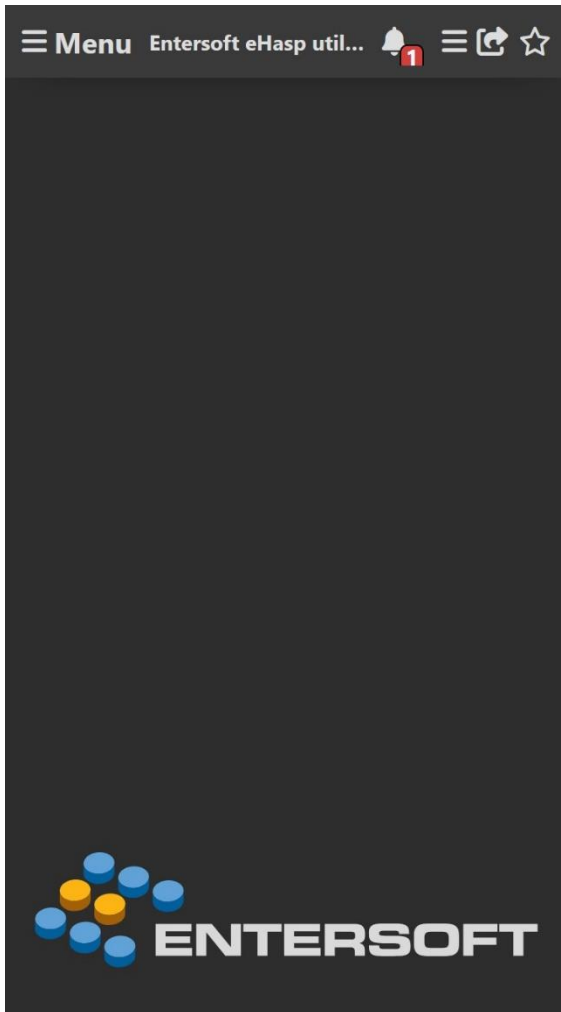

SIGNIN

You can use your current EBS credentials to sign in the application.

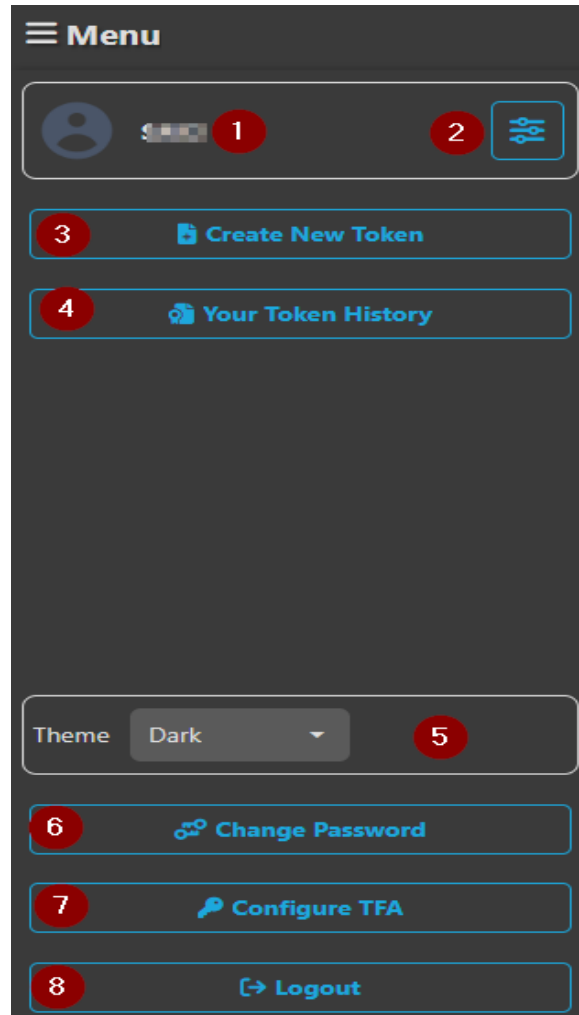

The image shows a web form titled "Entersoft Portal for Consultants" with the Entersoft logo. The form contains the following fields and elements:

- Email ή Όνομα χρήστη consultant**: A text input field.
- Κωδικός πρόσβασης**: A password input field with a masked display (dots).
- Εταιρεία**: A dropdown menu with "EBSGRPC" selected.
- Υποκατάστημα**: A dropdown menu with "ΑΘΗΝΑ" selected.
- Να με θυμάσαι**: A toggle switch that is currently turned on.
- Σύνδεση**: A blue button.
- Σύνδεση με Google**: A button with the Google logo.

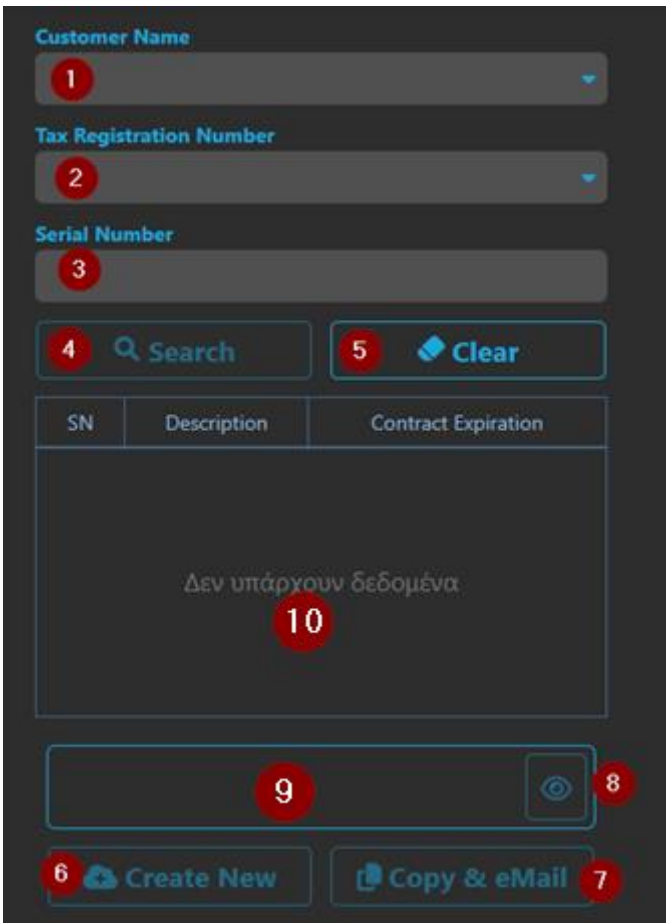

A successful login will land you at the home page. Use the menu at the top left corner to navigate through the application.

1. Current logged in user's image and name
2. About page
3. Create new tokens.
4. Your token history.
5. Change the theme of the application.
6. Change your password.
7. Configure Two Factor Authentication.
8. Logout

Be aware that actions (6) and (7) are processed by EBS application server and modify your EBS credentials in real time.

CREATE NEW TOKEN

The screenshot shows a form for creating a new token. It includes three dropdown menus for 'Customer Name' (1), 'Tax Registration Number' (2), and 'Serial Number' (3). Below these are 'Search' (4) and 'Clear' (5) buttons. A table with columns 'SN', 'Description', and 'Contract Expiration' is shown, containing the message 'Δεν υπάρχουν δεδομένα' (10). At the bottom, there is a text input field (9) with a visibility toggle (8), and 'Create New' (6) and 'Copy & eMail' (7) buttons.

A new token is issued against a specific application serial number.
You can search serial numbers either by customer name (1)

Customer Name	
enterso	
Name	TRN
ENTERSOFT BULGARIA EOOD	BG200306173
Entersoft Romania Software SRL	RO24241669
ENTERSOFT A.E.	999864122

or by customer’s tax registration number (2)

Customer Name

ENTERSOFT A.E.

Tax Registration Number

4122

TRN	Name
999864122	ENTERSOFT A.E.
094122574	ΧΡΩΜΑΤΟΥΡΓΕΙΑ ΤΡΙΠΟΛΕΩΣ Α.Β.Ε.Ε.

If you know the serial number, you can type it in the field (3).

Press “Search” (4) to search against your criteria.

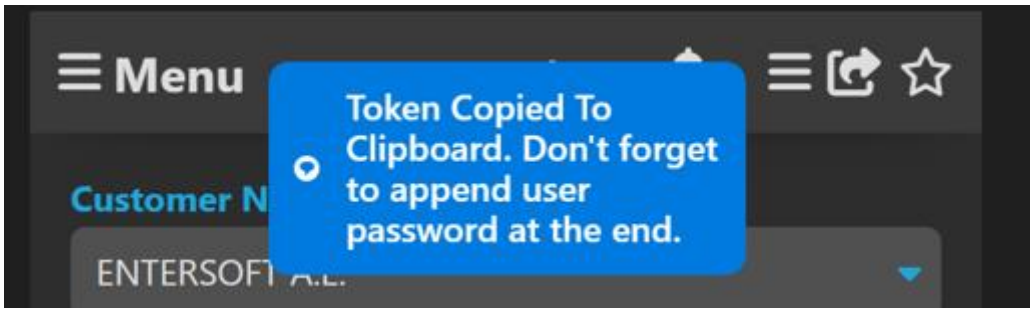

All available serial numbers are listed in the grid (10).

You can clear search results and parameters with the button “Clear” (5).

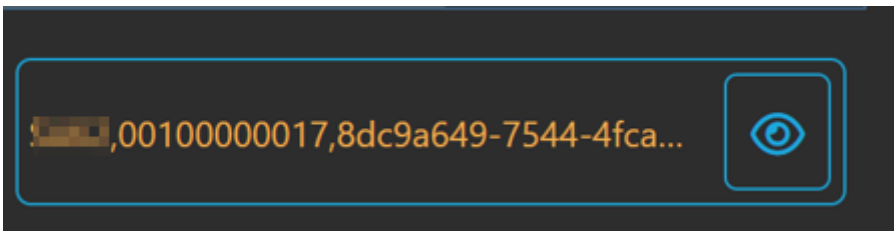

Select a serial number,

SN	Description	Contract Expira
00100047513	EBS Επιπλέον Αρ...	30/10/2025
00100050178	EBS Βασική Λειτ...	1/12/2030
00100053453	EBS Επιπλέον Αρ...	30/10/2025
00100071851	EBS Debug Αδει...	30/10/2025
00100104579	EBS Debug Αδει...	30/10/2025

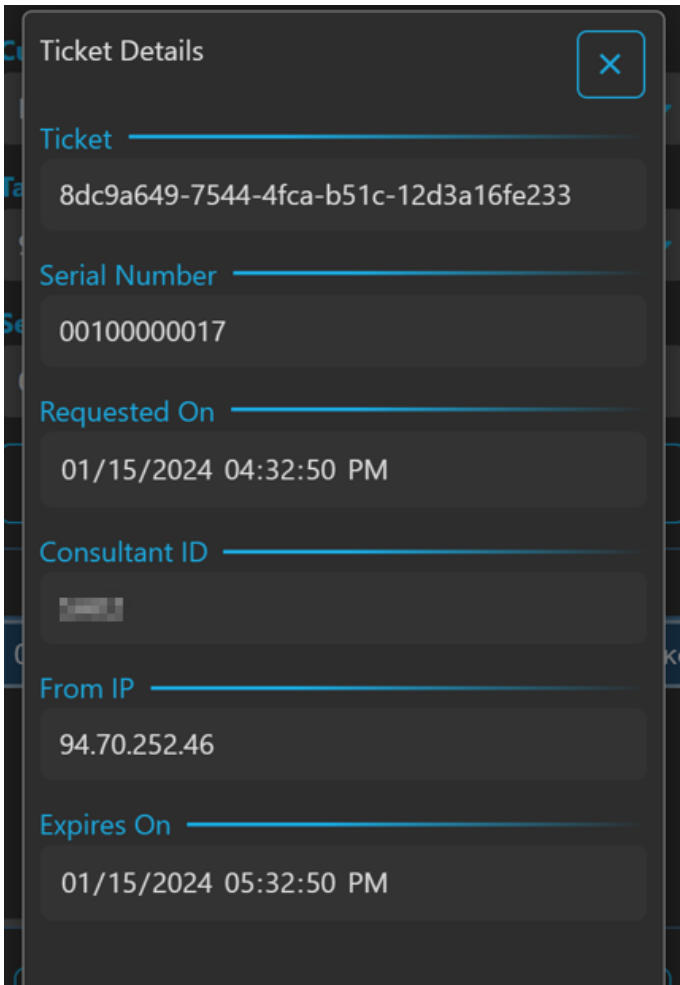

And press “Create New” button (6) to create your token.

The token is then displayed in the new token box (9)

You can view token details by pressing the info button (8)

By pressing "Copy and email" button :

- New token will be copied to your clipboard.
 - An email will be sent to your registered email address containing the token and all related details.
 - An S.M.S. will be sent to your registered mobile phone stating the successful operation.
-
- **A token must be used within 60 minutes. After that time a new token must be issued.**
 - **If you use the token in the above timeframe, you can work in EBS for as long as you want.**

USING THE TOKEN

When logging into EBS, at the login screen enter username as usual.
At the password field, paste the token and add the user's password at the end of the token.
